

Final Agenda for the Integrated Energy Policy Report 2004 Update Committee Workshop on Transmission

Monday, April 5, 2004

9:30-9:45 Welcoming Remarks (Commissioners John L. Geesman and James D. Boyd, IEPR Committee)

9:45-10:30 Alternative Scenarios of the State's Transmission Future

Presentation of the Energy Commission's consultant report, *California's Electricity Generation and Transmission Interconnection Needs under Alternative Scenarios* (prepared by the Electric Power Group of the Consortium of Electric Reliability Technology Solutions (CERTS))

Presenter: Joe Eto, CERTS, Lawrence Berkeley National Laboratory

10:30-11:45 Collaboration on Developing a Long-Term Vision of the State's Transmission System

Staff presentation on process and potential drivers for the development of a long-term vision for the state's transmission system for eventual use in the development of state policy.

Panel discussion of interested parties and individuals on developing a long-term vision for the state's transmission system.

Moderator: Joe Eto

Panelists will include:

- Gary DeShazo, California Independent System Operator
- Kevin Dasso, Pacific Gas and Electric Company
- Patricia Arons, Southern California Edison Company
- David Korinek, San Diego Gas and Electric Company
- Morteza Sabet, Western Area Power Administration
- Mark Ward, Los Angeles Department of Water and Power
- James Feider, Transmission Agency of Northern California
- Jane Turnbull and Jane Bergen, League of Women Voters
- Andrew Bozeman, Southeast Sector Community Development Corp.
- Francisco Da Costa, Environmental Justice Advocacy
- Bill Myers, The Valley Group, Inc.
- Rich Ferguson, Center for Energy Efficiency & Renewable Technologies
- Tom Tanton, Vulcan Power and Silvan Power
- Perry Cole, Trans-Elect
- Donald Clary, Pechanga Band of Luiseno Indians
- Bulant Bilir, Solargenix
- Barry Flynn, Flynn RCI

- Other interested parties and interested individuals*

Discussion Topics

1. What drivers need to be considered in developing a state long-term transmission vision?
2. What do you see as the vision for California's transmission system?
3. What steps need to be taken in this 2004 IEPR Update?
4. What steps need to be taken in the 2005 IEPR proceeding?

11:45-1:00 Break/Lunch

1:00-1:15 Process for Transmission Streamlining

Presenter: Kerry Hattevik, California Public Utilities Commission

1:15-2:45 Immediate Transmission Problems in the State, Their Immediate Short-term Solutions, the Impact on Renewable Development, and the Consequences of Permitting Uncertainty

Presentations by:

1. Gary DeShazo, California Independent System Operator
2. Kevin Dasso, Pacific Gas and Electric Company
3. Patricia Arons, Southern California Edison Company
4. David Korinek, San Diego Gas and Electric Company
5. Morteza Sabet, Western Area Power Administration
6. Mark Ward, Los Angeles Department of Water and Power
7. James Feider, Transmission Agency of Northern California

Discussion Topics

1. Where are the problem transmission areas?
2. What are the short-term transmission solutions?
3. How do these short-term solutions address the interconnection of existing and future renewable energy sources?
4. What are the consequences of inaction or delayed action in implementing the short-term solutions?
5. How do you see your short-term solutions fitting into a longer-term plan for your customers?

2:45-3:15 Public comment

3:15-3:30 Wrap-up/Closing Remarks (IEPR Committee)

*** Please contact Kristy Chew, Judy Grau, or Don Kondoleon at the workshop if you are interested in joining the panel discussion.**
